Pooled Energy provides a bundle of Electricity and high-technology Pool Services designed to improve energy efficiency through pool automation. The Services must be taken as a bundle for the entire premises including pool. Neither electricity nor pool services are sold separately to new customers. Services are delivered using high-technology automation and equipment upgrades installed at the customer's site for the duration of the contract. When comparing rates, please note that the Pooled Energy technology should reduce your energy usage and therefore your running costs using our reference pool as the benchmark for our calculations. See [www.pooledenergy.com](http://www.pooledenergy.com) for further information. All customer offers are subject to written approval by Pooled Energy following a site visit to assess technical viability.
